

BAGUS PRAYOGO

PROJECT LEAD

Project Lead specializing in large-scale logistics infrastructure and high-speed multi-site deployment. Proven track record delivering 100+ sites across Indonesia, including 300% target overachievement in accelerated rollout programs. Experienced in leading cross-functional teams (engineering, operations, vendors) to execute complex projects under aggressive timelines, with full ownership of budget, technical validation, and go-live readiness. Strong in driving scalable execution, operational efficiency, and high-impact infrastructure expansion in fast-paced environments

Experience

Jan 2025 - Present

Bytedance

Project Lead

- Led national-scale logistics expansion (first mile, last mile, automated sortation) across multi-region deployment
- Delivered 55 operational sites within 3 quarters (Java expansion) under aggressive rollout timeline
- Achieved 300% of Q1 2026 deployment target (30 sites vs 10 planned), demonstrating high-speed execution capability
- Driving 132-site national expansion program (2026) with multi-site parallel execution strategy
- Owned full project lifecycle (planning-execution-go-live), managing 100+ concurrent sites with strict timeline and cost control
- Directed cross-functional execution across engineering, operations, and vendors to ensure seamless rollout and go-live readiness
- Led technical validation including BOQ review, layout alignment, and automation SAT prior to operational handover

Jul 2022 - Dec 2024

Goto Logistic

Senior Electrical

- Promoted to Senior Electrical Engineer, leading technical work and team guidance
- Acted as main link between design, execution, and stakeholders
- Supported full project cycle across logistics and industrial builds
- Kept work on track with time, budget, and technical needs
- Contributed to fulfillment center and hub expansion projects

Sep 2021 - Jul 2022

Swift logistics solutions

Electrical Engineer

- Assisted electrical engineering tasks for a major fulfillment center
- Worked with the Project Engineer on design reviews and layouts
- Helped with BOQs and technical reviews
- Coordinated across teams for execution and reporting
- Took part in the full project cycle

Aug 2019 - Apr 2021

Wings Group

Electrical Engineer

- Delivered 13+ projects within <2 years, demonstrating strong execution speed and multitasking capability
- Designed electrical systems including load analysis, MEP layout, and technical specifications
- Managed BOQ preparation and supported procurement readiness for project execution

Mar 2019 - Jul 2019

Fuji SMBE

Site Service

- Check installed panels for accuracy with drawings
- Test panel functions
- Conduct SAT and FAT with the client
- Perform repairs at the client site
